## DAUGHTERS' BOARD MEETING.

Routine Business Transacted at the Morning Session Today.

Mrs. Donald McLean, president general, Daughters of the American Revolution, is in the city, presiding over the meeting of the national board.

Routine business was transacted during the morning session, which concluded at 1:30 o'clock. An afternoon session convened at 3 o'clock.

Discussion as to who will be leader of the D. A. R. for the next two years seems limited to the so-called "big girls," namely, those who are opposed to Mrs. McLean. The chief objection to Mrs. McLean's administration by the insurgents was her determination to bond Continental Memorial Hall.

Mrs. Matthew T. Scott, one of the wealthy women of the country, and a business woman, has been brought out as a candidate. She is in the fight to win. It is also said that Mrs. Scott never stipulated that she should be the "only" candidate.

Sues for Alleged Slander Samuel M. Saylor, engineer of the Belasco Theater, today filed suit to recover \$10,000 damages for alleged slander from Robert C. Dove, in the employ of the J. M. Dove Coal Company.

The defendant, in an alleged, December 21 last, told Manager Taylor of the Belasco Theater that the engineer had been bribed by the competing coal company to decide in favor of its product instead of that furnished by the Dove company. By reason of this alleged scandal, Saylor declares he has suffered in his reputation.

## FROST ON FRIDAY.

## Promise Made by Weather Prophet of 40-Degree Temperature.

Jack Frost is scheduled by the weather bureau to visit the District tomorrow night or before daylight Friday morning and play havoc with the springtime geniality that has been in evidence hereabouts for the past forty-eight hours. The temperature in Washington this morning about 8 o'clock was sixty-six degrees. Prof. Garriott says there will probably be a drop of about sixteen degrees by tomorrow morning, while by Friday morning the mercury is expected to go down to the forty mark or lower. "The temperature will not go quite down to the freezing point," he added, "but we are liable to see some frost by Friday morning. The remainder of the week will be comparatively cool. The mercury yesterday reached the summer temperature of eighty degrees." Those citizens who emerged from their overcoats yesterday and today, and their names is legion, will have to get back into their outer coverings if the prediction of the weather man is verified. It will also be necessary for the housewives who have played their tiny flower shows to cover the beds with paper or other thin material in order to prevent Jack Frost from helping them. The fruit tree buds are well advanced, but it is hoped that frost may not seriously injure them. The records of the weather bureau show that there have been many frosts in early April in this locality.

## WEATHER FORECAST.

Fair and Cooler Tonight and Thursday; Brisk West Winds.

For the District of Columbia, Delaware and Maryland, showers this afternoon; fair, cooler tonight and Thursday; moderate to brisk southwest to west winds.

Maximum temperature past twenty-four hours, 82; a year ago, 69.

The western storm has reached the Michigan peninsula, the violence development, and showers and thunderstorms were general from the Mississippi valley eastward, except along the middle and south Atlantic coast. There were also local rains and snows in the plains states and snows in the central Rocky mountain region.

High temperatures continue in the Atlantic states, but it is decidedly cooler in the central valleys, and temperatures are below the seasonal average over the entire extent of the country.

A great wave of high pressure covers the northwest and extreme west, and after the showers of this afternoon and tonight over the central valley, several days of fair weather with moderate or comparatively cool temperatures may be expected generally.

The wind along the south Atlantic coast will be moderate to brisk southwest to west; on the south Atlantic coast, moderate to brisk west to west; on the west coast moderate and variable, becoming northerly.

Steamers departing today for Europe ports will be under the influence of the south to southwest winds with showers to the Grand Banks.

The following heavy precipitation (in inches) has been reported during the past twenty-four hours: Anniston, 1.10; Knoxville, 1.28; Meridian, 1.80; Birmingham, 1.36; Louisville, 1.16; Escamaba, 1.00; Memphis, 2.72.

Note—The display of storm warnings on the Great Lakes, St. Lawrence, Huron, St. Clair, Erie and Ontario will be resumed for the season April 10, 1909.
